- Worked on Website Deployment.

CERTIFICATIONS

1. Agentic AI Fundamentals— Oracle 2026
2. AI Tools And Claude Workshop — Be10X 2026
3. Codeveda Hackathon — Hacker rank 2026
4. AWS MLH Hackathon — MLH 2026
5. Code Nova Hackathon — Java 2026
6. Hacker rank Orchestra— Hacker rank 2026

ACADEMIC PROJECTS

1. Campus Retain — A Lost & Found Portal
A web-based lost-and-found platform for college campuses that enables students to report lost items, post found items, and manage claims through a centralized system. The platform helps streamline the recovery process and makes it easier for students to reconnect with their belongings Using HTML, CSS, JavaScript, Python, Flask, SQL.

2. ChitHub— Financial Chit Fund Hub
A web-based chit fund management and auction platform for managing chit groups, member contributions, and auction processes. The system helps organize financial records and streamline chit fund operations through a centralized website Using HTML, CSS, JavaScript, Python, Flask, SQL.

3. Campus360 — Campus management Platform
A campus-focused web platform designed to bring student services, campus information, and useful resources together in one place Using HTML, CSS, JavaScript, Python, Flask, SQL.

4. Furnirent — Smart Furntiure Rental Website
A web-based furniture rental platform that allows users to browse available furniture, explore rental options, and manage their rental requirements through a centralized website. The platform provides a convenient way to access furniture for temporary use without the need for direct purchase Using HTML, CSS, JavaScript, Python, Flask, SQL.

ACHIEVEMENTS & PARTICIPATIONS

- 3rd Place — HackerRank Hackathon
- Participated in CodeVeda
- Participated in MLH Hackathon
- Participated in Java Workshop

PORTFOLIO & VIDEO RESUME
